Experience

Senior Software Engineer | Kroger
8/22 - Present

Front-End Software Engineer
6/21 - 8/22

- Developed multi-banner CMS powered assets written in React and TypeScript with testing accounted for using React Test Library.
- Supported feature enhancements, including the resolution of technical debt, for existing assets and improvements to search engine optimization for page and article builders.
- Participated in Scrum ceremonies and discoveries toward the new assets and components.

Front-End Developer | WebstaurantStore
5/20 - 6/21

- Collaborated with a team of designers in implementing new user interfaces prototyped in Figma and architected with Ant Design components.
- Maintained accessibility of platform so that ADA compliance was met.
- Improved Webpack performance for speed and efficiency in Admin Portal, ultimately reducing build times in half for running and deploying projects.

Web Developer | eLink Design
5/19 - 4/20

- Designed and developed responsive, cross-browser compatible websites.
- Coordinated directly with clients from the initial project planning session to the final deployment of their product, facilitating communication and implementing feedback promptly so that timelines were being met.
- Clientele included local and regional based companies.

Projects

Open Graph Tag Generator

- Application that dynamically generates Open Graph tags using information derived from custom meta keys.
- Unit tests written using React Test Library to simulate all scenarios relevant to tag composition and how form submission is parsed.

WeatherFi

- Application that generates the three day weather forecast using the WeatherAPI architected with Ant Design components.
- User can search by city and state or zip code to retrieve forecast for their location, active forecast defaulting to current day.

Quiz Time - Video Game Ed.

- Intuitive trivia game that tests players on their knowledge of video games with ten randomized questions retrieved from the Open Trivia API.
- Visual cues are leveraged to alert the player if their selection is correct or incorrect, along with a system that tracks their score.

Skills

Front-End Development

HTML5, CSS3/Sass, JavaScript (ES6), React, Redux, NextJS, Typescript, Axios, Ant Design, Bootstrap 4, Tailwind, React Test Library, Cross-Browser Optimization, Responsive Design, Accessibility

Back-End Development

Node.js, Express, MongoDB

Workflow & Software

Git, Agile, Jira, Visual Studio Code, Github, Chrome Devtools, Figma, Storybook, Postman, Netlify, Trello

Education

DevMountain

Full Stack Development Bootcamp
January - April 2019

University of Kentucky

BS in Human Nutrition - 2015
Cumulative GPA: 3.7 / 4.0

Certifications

Advanced CSS and Sass: Flexbox, Grid, Animations and More

Jonas Schmedtmann

Complete JavaScript Course (2021)
